

A Perfect Combination

Enhance your ELAN system - with powerful new control features. If you have, or are planning on installing an ELAN system in your home, you already realize the value and convenience of having whole-house entertainment and communications at your beck and call, from any room, at the touch of a button.

But did you know that you can easily add a home management package that ties right in with your ELAN system and provides you with one-of-a-kind solutions for your **complete comfort and safety**?

Imagine using your PC or iPhone®, at home or away, to turn on lights, turn down the thermostat or set the temperature of your hot tub so that it's just right when you're ready to jump in.

With a HomeLogic upgrade to your ELAN system you can . . .

- **Feel safe with in-home and Internet security camera monitoring**
- **Remotely access your home using your computer, Windows SmartPhone, iPhone or iPod touch**
- **View security system events history and temperature trend-lines**
- **Control and automate blinds & shades, pool & spa, sprinkler systems, and more!**

HomeLogic's GREEN control features help you do your part to save natural resources, lowering your carbon footprint while saving you money each and every month.

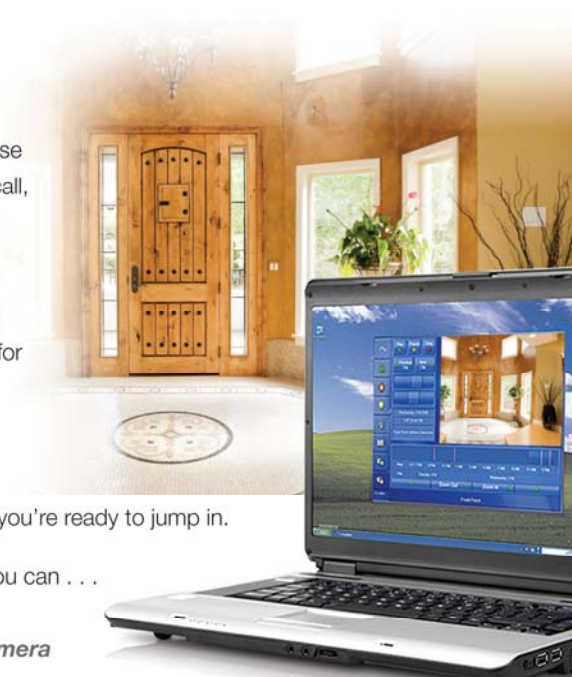

And it all integrates seamlessly with your existing ELAN components, enhancing your initial investment while delivering powerful, cutting-edge technologies that you'll wonder how you ever lived without.

Secure.
Comfortable.
Efficient.
Easy.

HOMELOGIC
INTELLIGENT HOME CONTROL

The finest in whole-home entertainment and communications combined with state-of-the-art control. It doesn't get any better than this.

*Features vary depending on components selected for installation. Consult your authorized HomeLogic Dealer for the feature set that's right for you and your Home Management needs.

HOMEOLOGIC & ELAN

SECURITY • CLIMATE • SURVEILLANCE • LIGHTING

ADD HOMEOLOGIC IP-BASED CONTROL TO YOUR ELAN SYSTEM TODAY AND GET:

- Remote access to security system control and monitoring
- Remote access to HVAC control and monitoring
- Control of all sub-systems from a PC, laptop, Windows Smart Phone, iPhone®, or iPod Touch®
- Get E-mail alerts of security breaches, low/high temperature alarms, water sensors
- Set automatic time-of-day lighting control
- View up to 16 IP or CCTV security cameras over the Internet
- Automation and control of interior and exterior lighting
- Automation between systems (i.e. security breach triggers lights/fire alarm, shuts off HVAC and turns on pathway lights)

FOR ADDED SECURITY, HOMEOLOGIC OFFERS A PEACE-OF-MIND UPGRADE PACKAGE THAT GIVES YOU ALL OF THE ABOVE *PLUS...*

- Automate video recording triggered by security system events or motion detected by camera
- Record up to any 4 cameras at one time
- Retrieve recorded video via the Internet
- Receive e-mail alerts when video is recorded
- Integrate lighting, security and video camera recording

Additional upgrades such as Touch Panel / Internet-accessible Messaging, Pool & Spa Control, Home Theater Control and more are available.

Costs will vary depending on the features you select and the extent of the lighting, climate and security systems you think will best suit your needs.

 Call us today to find out how we can help you spec and configure just the right products for all your Home Control applications.
